## **Cyber Wurx Adds 96 Fiber Strands to Colo Atl Data Center**

**ATLANTA, March 23, 2016** – [Colo Atl](#), the leading provider of carrier-neutral colocation, data center and interconnection services at 55 Marietta Street in Atlanta, GA, announces today that [Cyber Wurx, LLC](#), a privately held technology company located in downtown Atlanta, has successfully completed a fiber installation of 96 fiber strands (48 pairs) into Colo Atl's Meet Me Room. The company hopes to add even more fiber to the facility over the next year.

A longtime customer and partner of Colo Atl's, Cyber Wurx is also located at 55 Marietta Street. The company first collaborated with Colo Atl in 2004 as it sought interconnection to service providers via the Colo Atl facility extending to 56 Marietta Street.

"Our latest 48 pairs of fibers will allow Cyber Wurx to add more critical networking opportunities to our current and future customers," states Chris Schwarz, CEO of CyberWurx. "In addition to its location, there are a number of advantages to working with Colo Atl. These include exceptionally fast installation turnaround times, a friendly and professional staff, and access to more than 80 network operators and service providers."

"Cyber Wurx is a terrific tenant and technology partner of Colo Atl's. Its fiber installation into the Colo Atl Meet Me Room supports Colo Atl's ongoing mission to increase dark fiber availability and improve connectivity throughout the Southeast," comments [Tim Kiser](#), Owner and Founder of Colo Atl. "And by utilizing our facility and services, Cyber Wurx is able to facilitate easy cross connections to any of our providers here at 55 Marietta for its own customers, at no charge."

Cyber Wurx also plans to further develop its working relationship with Colo Atl by becoming a member of Colo Atl's sister company, the [Southeast Network Access Point \(SNAP\)](#). SNAP provides next-generation Internet Exchange (IX) solutions, including SDN peering, testing and implementation.

Founded in November 2001, Colo Atl provides a reasonable, accommodating and cost-effective interconnection environment for more than 80 local, regional and global network operators. In 2016, the company is celebrating its 15-year anniversary of providing service

excellence and growth. Learn more about our 15-year celebration promotions and other activities [here](#).

In addition to the Southeast Network Access Point (SNAP), the Colo Atl facility is also home to the Georgia Technology Center (GTC), a test bed and live production facility for network communications equipment.

### **About Colo Atl**

[Colo Atl](#), a JT Communications company, is the leading provider of network-neutral colocation, data center and interconnection solutions at 55 Marietta Street in the global telecom hub of Atlanta, GA. Colo Atl provides superior network-neutral colocation, data center and interconnection services at an affordable rate. Colo Atl is a network-neutral environment that allows all types of network operators to securely and conveniently cross connect within a SSAE 16 certified facility. Colo Atl has no monthly recurring cross connect fees between tenants and provides exceptional customer service.

Colo Atl is also home to the Georgia Technology Center (GTC), a live laboratory for network equipment vendors to highlight their optical and electrical hardware and operating systems, and the Southeast Network Access Point (SNAP), which provides next-generation Internet Exchange (IX) solutions, including SDN peering, testing, collaboration and implementation.
